Professional Summary

Detail-oriented and analytical Software Tester with over 6 years of experience in manual and automated testing environments. Skilled in identifying bugs, inconsistencies, and errors in software applications across diverse technology stacks. Proficient with tools like Selenium, JIRA, and TestRail, and experienced in developing comprehensive test plans and strategies to ensure software reliability and performance.

Professional Experience

Senior Software Tester

Innovative Solutions, Puebla

May 2018 - Present

Led a team of 8 testers in a fast-paced development environment, improving test coverage by 40% and reducing critical bugs in production by 30%.

Developed and executed automated testing frameworks using Selenium and Python, which reduced the testing cycle time by 50%.

Collaborated closely with the development team to implement CI/CD pipelines, enhancing the effectiveness of testing phases and minimizing manual testing efforts.

Software Tester

TechSoft Enterprises, Puebla

July 2014 - April 2018

Conducted extensive manual testing for mobile and web applications, ensuring alignment with user requirements and system specifications.

Identified, documented, and tracked bugs using JIRA, facilitating quick resolution and improving communication across teams.

Assisted in developing and maintaining test documentation, including test cases, test plans, and test reports, ensuring compliance with industry standards.
